forget

treasure & trash

drone

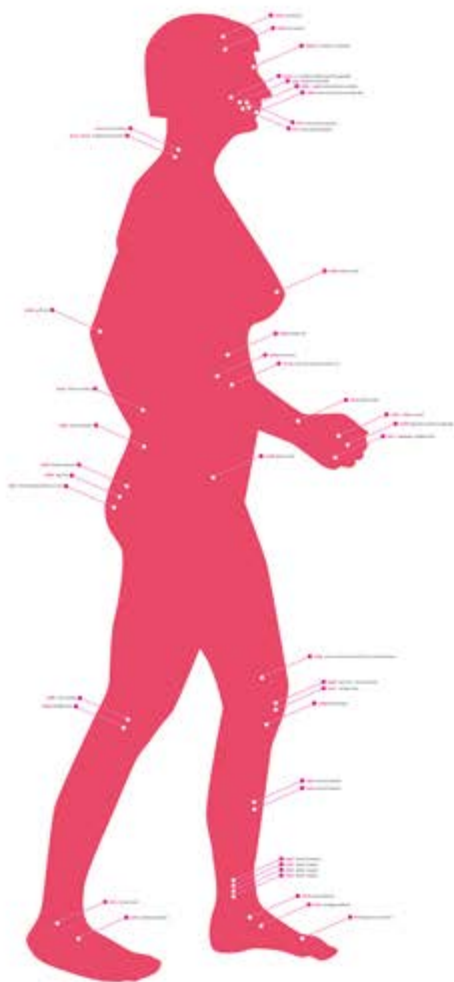

I wish to **trash** my body since;

- it has been defect so often
- it made my suffer from ache and pain.
- it limited me so often doing the things I wanted
- it never looked the way I wished for.

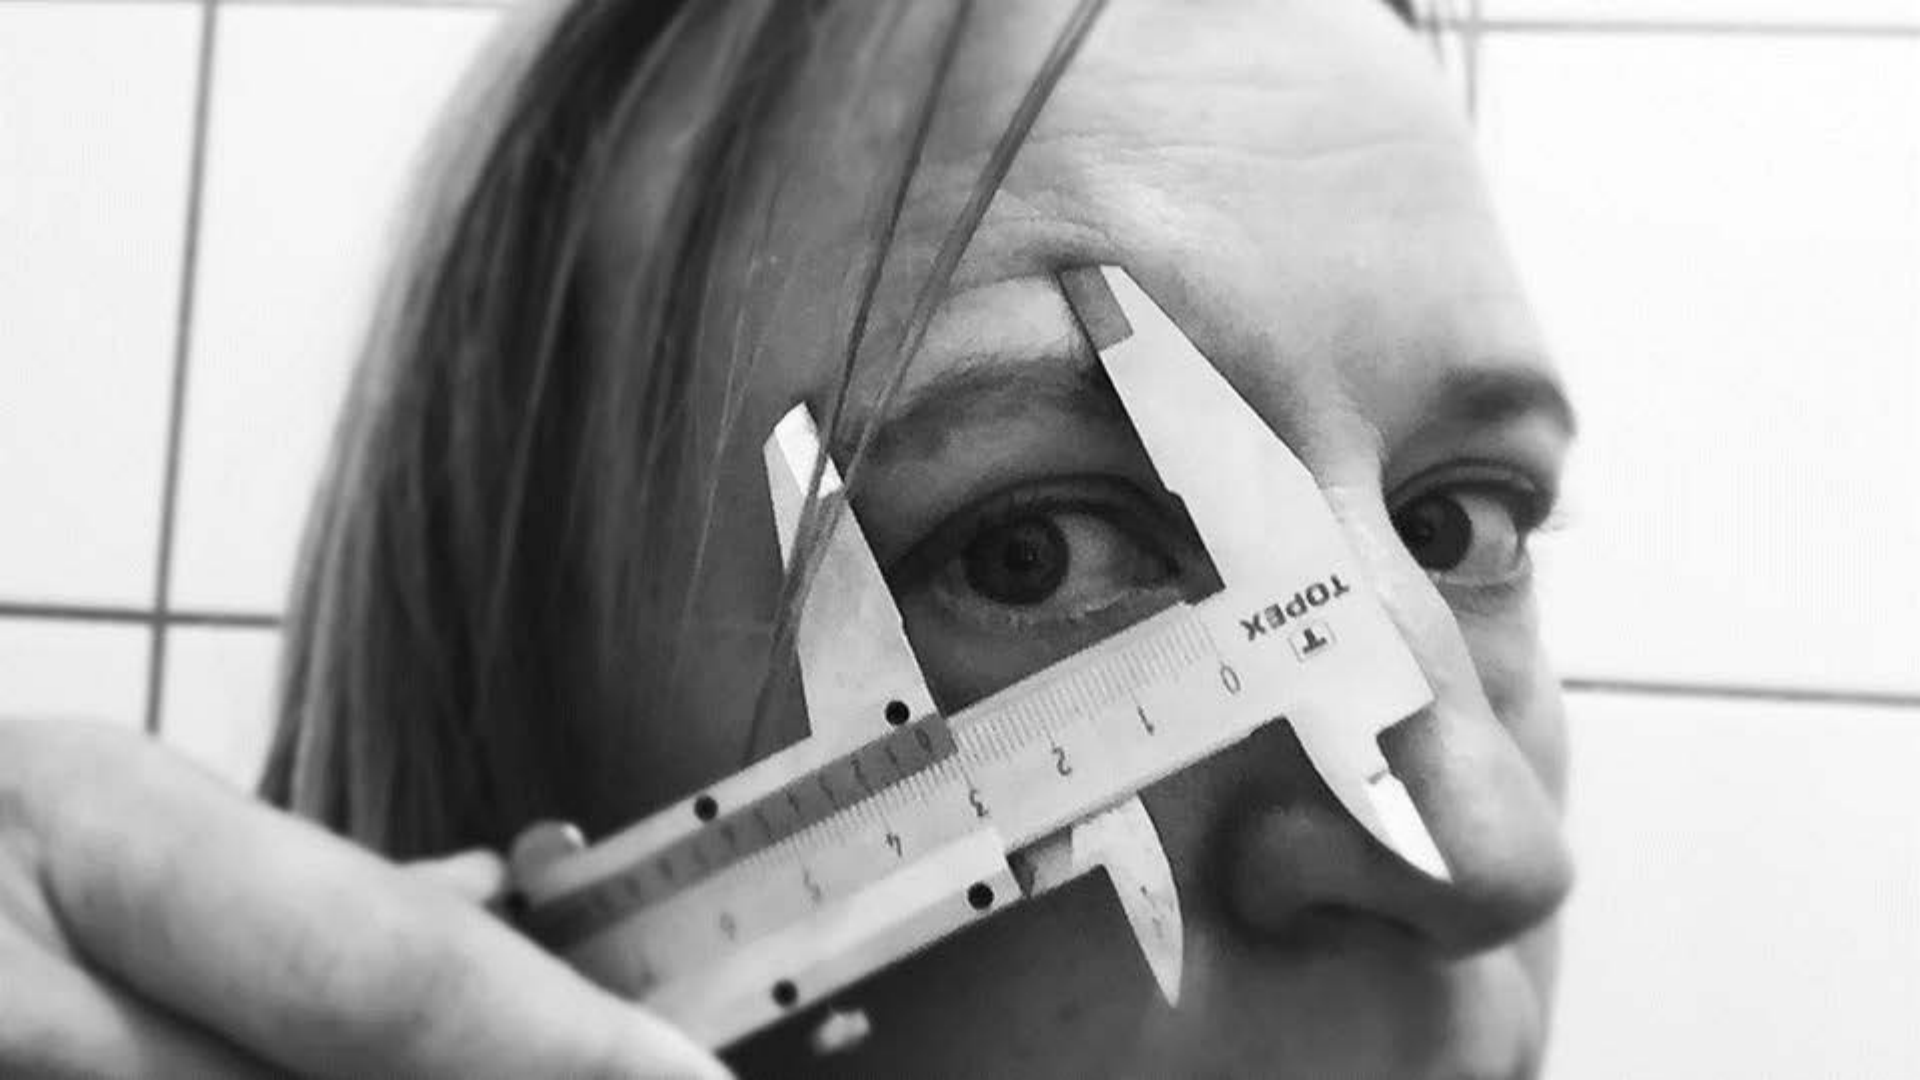

I do **treasure** my body since;

- it has been able to recover so miraculously and so often
- the resilience it showed taught me many lessons in life
- it told me often feelings I did not realize yet
- it is so much me
